total Admin Expenses	\$27,000
Total Grant Budget	\$2,800,000

COVID-19 IMPACT: Since the inception of the fund, the majority of the grants supported teachers, technology, and programs. The board voted to give the school districts more flexibility on how they spend the grants while still providing accountability reports at the end of the school year. The flexibility allows the districts to determine the best way to spend the money in this changing environment. A detailed accountability report will be required at the end of the grant year.
